International Conference on Advances in Medical and Industrial Biotechnology

Wednesday, 20th March to Friday, 22nd March 2019.

About the Conference

Medical and Industrial Biotechnology are the promising fields of biology that involves the use of living organisms and bioprocesses in engineering, technology, medicine and other fields requiring bio-products and technologies. The concept covers a wide range of techniques to develop the products and technologies from living organisms according to human purposes by experimental studies. This multidisciplinary International Conference on Medical and Industrial Biotechnology (ICAMIB) is a premier forum to disseminate sustainable principles, ideologies and practices in various layers, new advances and research results in the fields of Biotechnology and Bio-products from the micro to macro level. The forum would enable the stakeholders with the necessary insights to integrate sustainable principles in creating functional products and technologies for the mankind. The international conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world.

Publication

Based on the quality, the conference papers will be published in any one of the following journal

1. Biosciences, Biotechnology Research Asia
2. Journal of Applied Pharmaceutical Science
3. International Journal on Applied Bioengineering
4. Biomedical and Pharmacology Journal
5. Pharmaceutical Biology

Conference Themes

- Medical Biotechnology
- Nano Biotechnology
- Bioinformatics
- Marine Biotechnology
- Industrial Biotechnology
- Natural products
- Environmental Biotechnology

Call for Papers

Authors are requested to submit a one page abstract of their original and unpublished research work on or before **18th Mar 2019** via email through icamib2019@gmail.com Acceptance of peer reviewed abstracts will be intimated through email for the submission of full manuscript.
